

## **WORK PLANS FOR 2014 -2015**

We will keep the picnic area next to the canal tidy and plant more trees, shrubs and flowers where possible. And erect more bird and bat boxes.

We will keep the mounds each end of Brabazon Way maintained and improved.

We will plant more trees round the Estate and determine if we can plant trees alongside the path at the back of the community land at Hornchurch Road to replace the hedge that was removed.

We will continue to try to arrange for a linking path to be built at the back of Bowerhill School to join existing paths.

We will monitor the balancing pond at Hastings Road.

We will campaign on issues raised by residents.

When an independent committee is formed for the sports field we will appoint a member on that committee.

We will erect more seats and benches round Bowerhill. The locations and types will be agreed tonight.

We will maintain the trees that BRAG planted on the bank next to Duxford Close.

We will continue to encourage more residents to join our litter pickers' team.

We will work with local residents to improve the open space area at Hornchurch Road.
